DETAILED ACTION

This office action is a response to the amendment filed on 6/6/2006.

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

IN THE SPECIFICATION

Change the title to --A METHOD FOR FABRICATING A MAGNETORESISTIVE (MR) READ HEAD--.

IN THE CLAIM

Re. Claim 9: After the phrase "the second gap layer" as recited in line 10, insert the phrase --; and--.

After the phrase "the MR sensor" recited in line 13, insert a comma --.--.

Re. Claim 20: After the phrase "the shield layer" as recited in line 12, insert the phrase --and--.

After the phrase "the MR sensor" recited in line 14, change the phrase "; and" to a period --.--.

Art Unit: 3729

2. The following is an examiner's statement of reasons for allowance: The prior art of record fails to disclose the claimed invention such as depositing a first gap layer above a recessed portion of a shield layer follow by depositing a second gap layer above the first gap layer and a protruding portion of the shield layer, and positioning an MR sensor above the second gap layer. It is not obvious taken alone or in combination of other references fairly to suggest the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Claims 9-15 and 20-38 are allowed.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Paul D. Kim whose telephone number is 571-272-4565. The examiner can normally be reached on Monday-Thursday between 6:00 AM to 2:00 PM.
